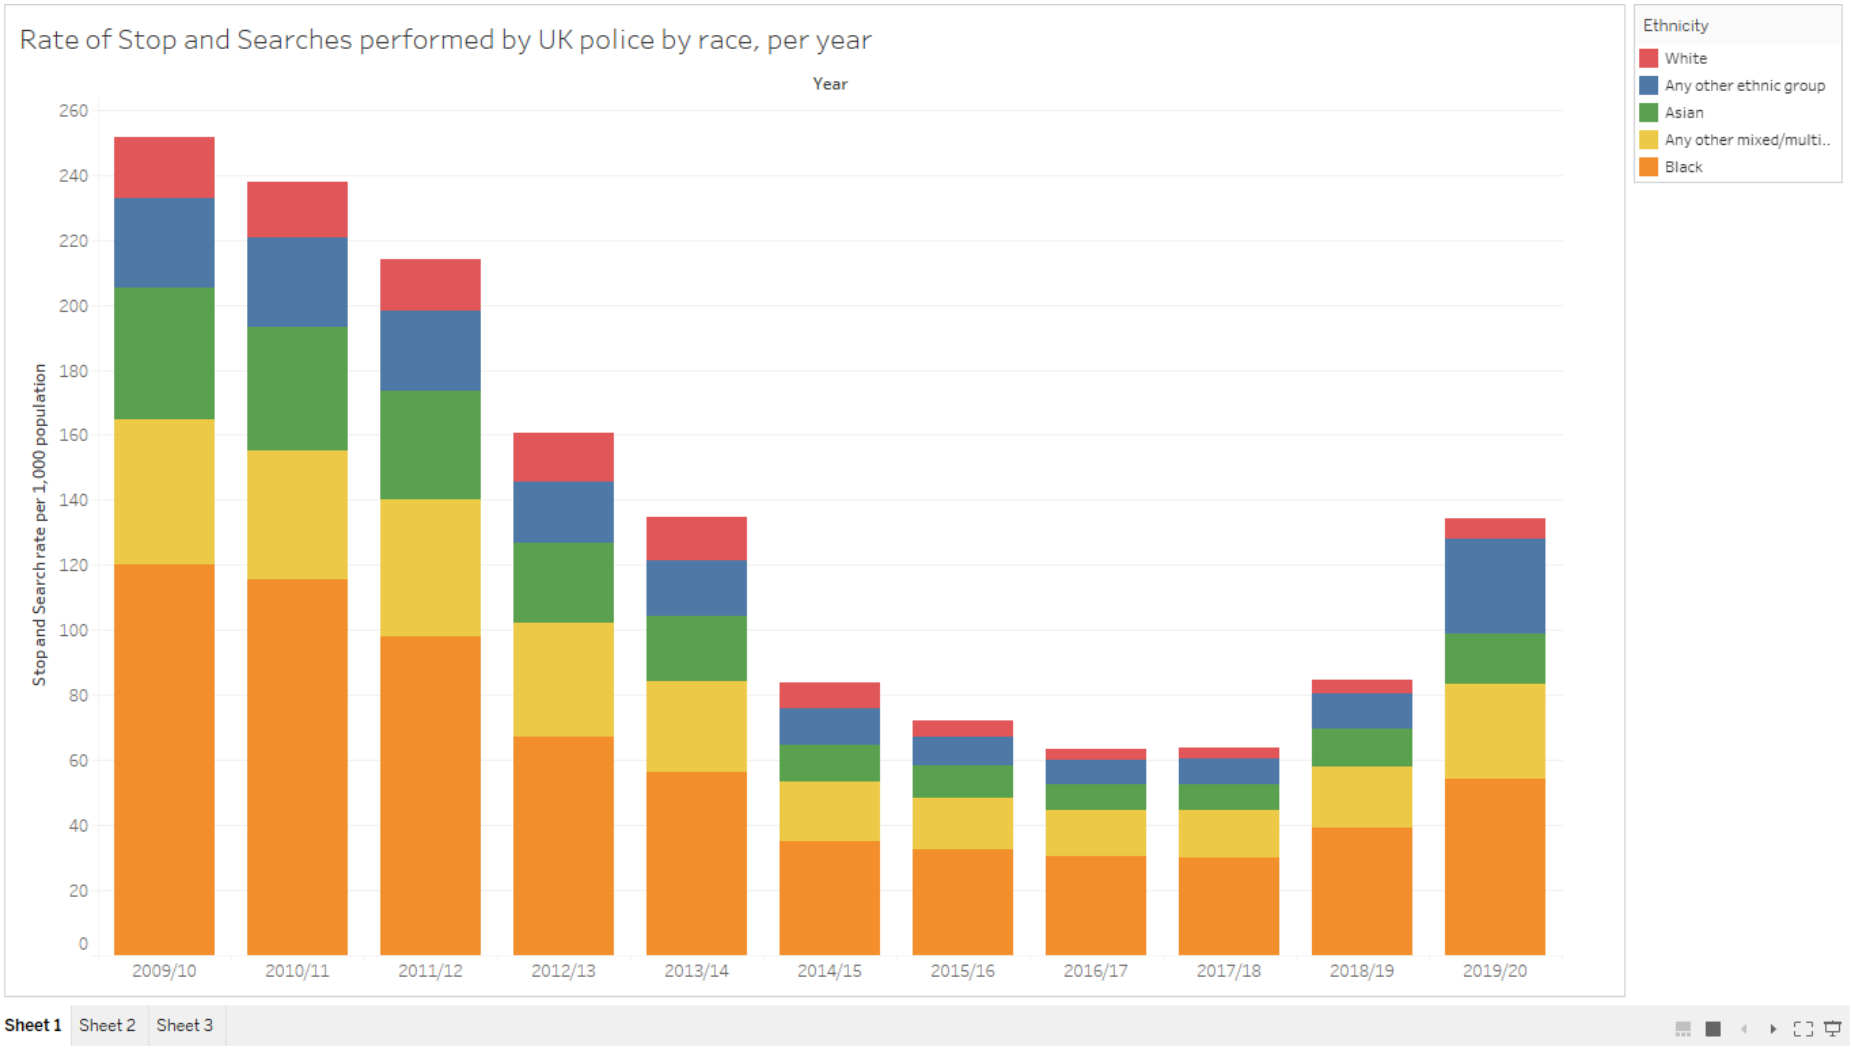
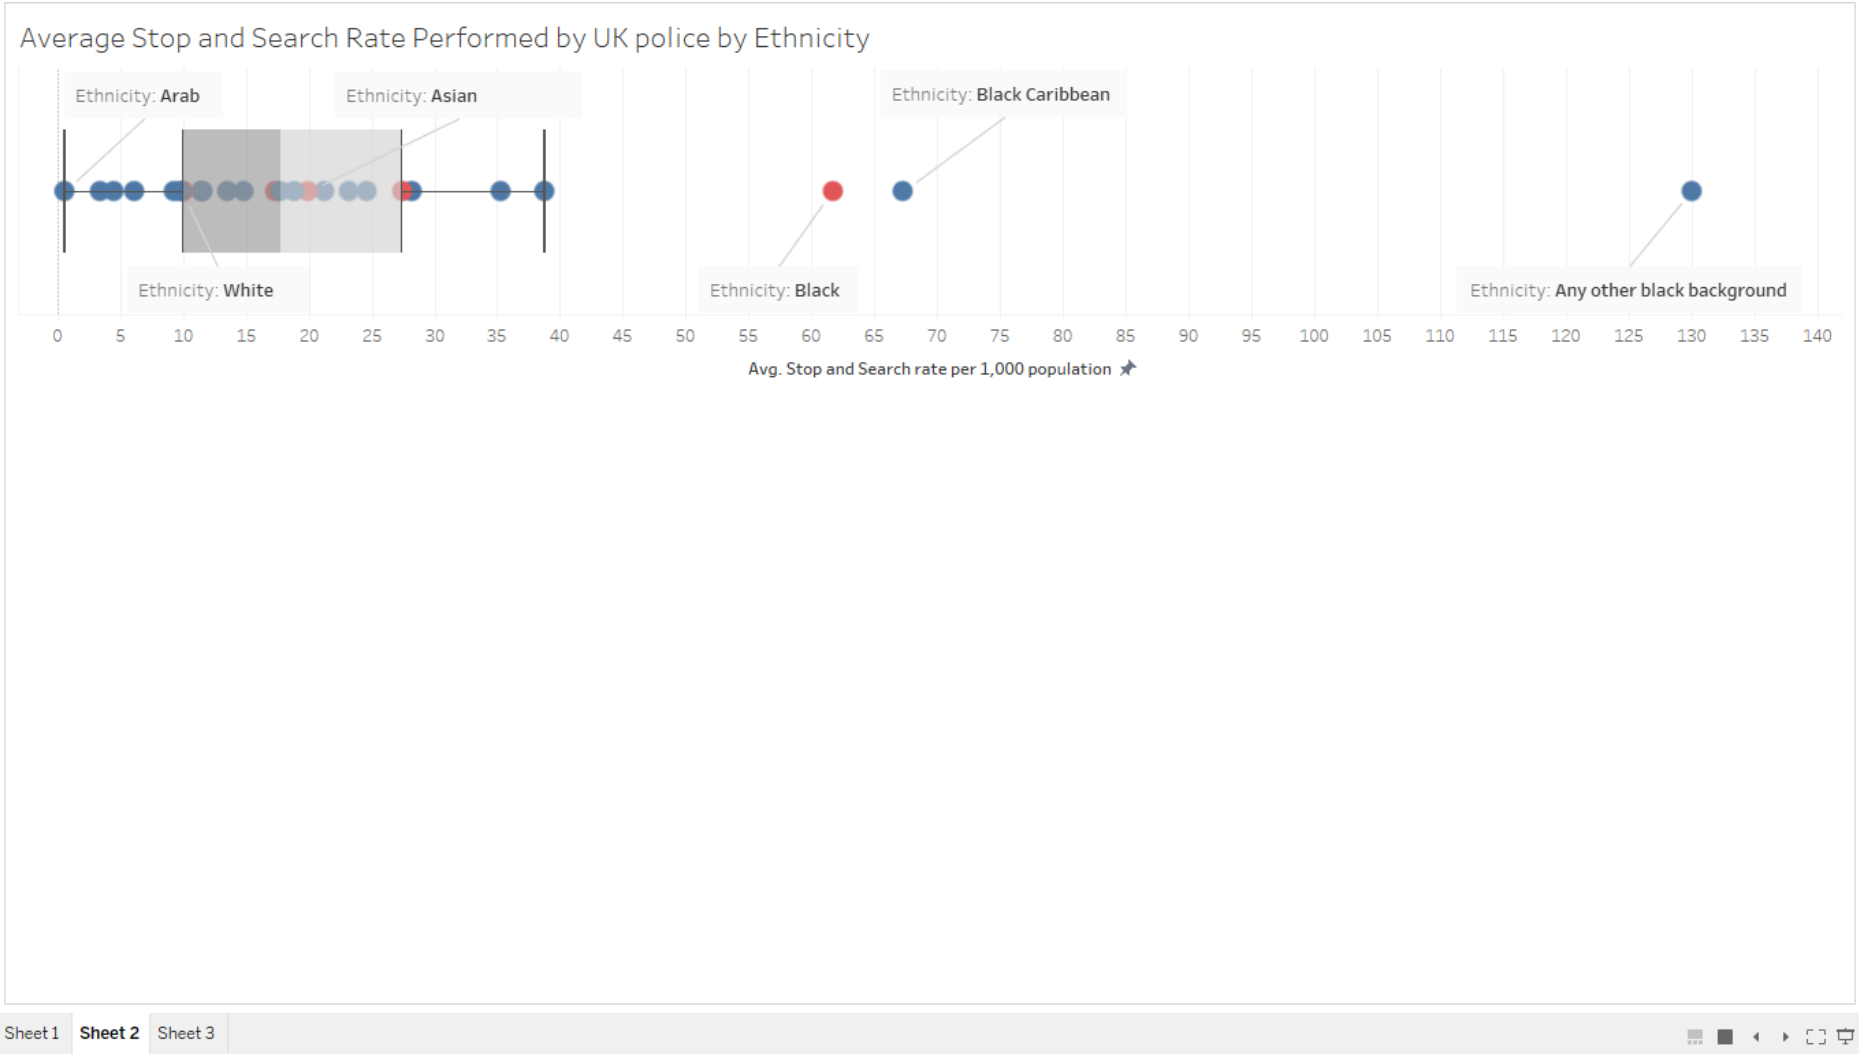
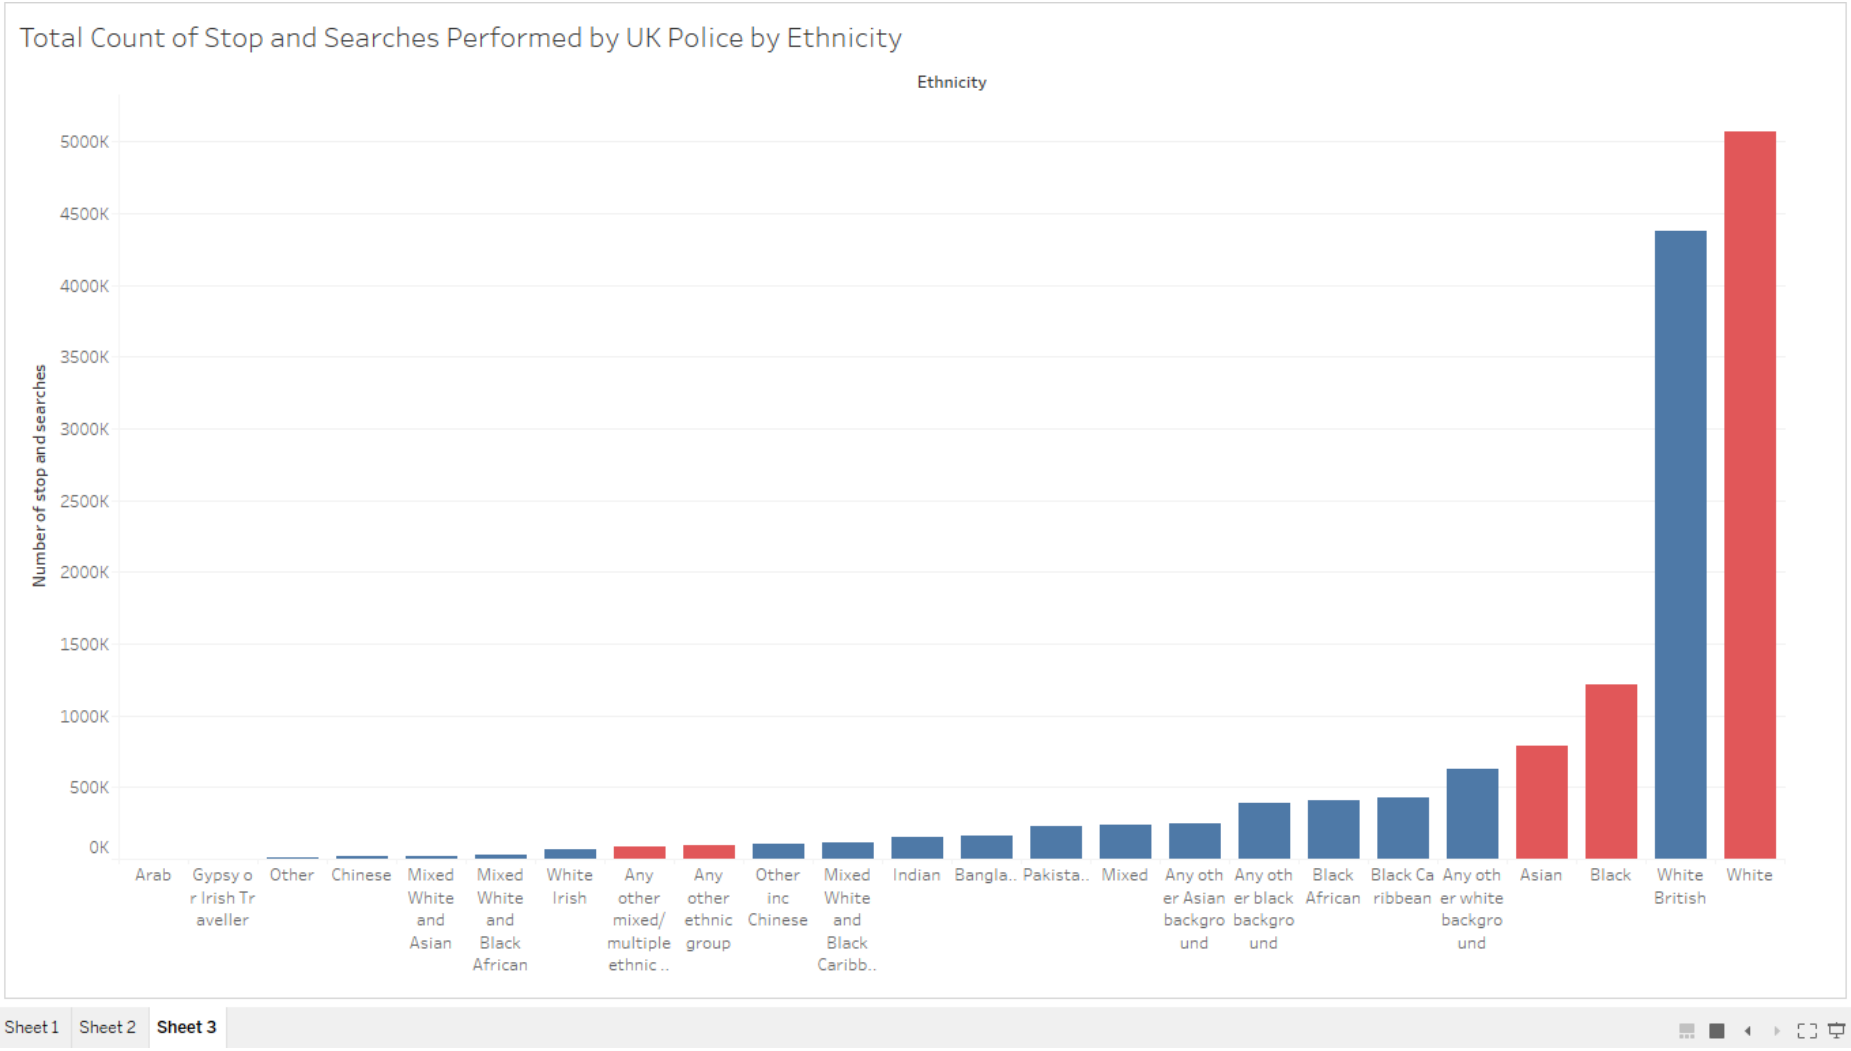
Stop & Search by Ethnicity in England & Wales: https://data.world/makeovermonday/2021w25



The Rates of Stop and Searches per 1,000 population performed against Black, Asian, Any mixed/multiracial Groups, and Any other ethnic group, have always higher than that against White ethnic groups



The average rates of stop and searches against multiple black ethnicities, including Black, Black Caribbean, and any other Black background, are significant outliers when compared to all other averages.



White people do undergo the most amount of stop and searches, with Black and Asian people coming in as the next highest
